SKILLS

React	jQuery
React/Redux	Git
JavaScript	OOP
Node.js	Sass/SCSS
CSS/HTML	TDD/BDD
Agile Workflow	Vue.js
PostgreSQL	CI

PROFILE

Creative challenges and learning new skills are something I seek in every aspect of my life. After a decade of producing a variety of cuisines in the hospitality industry, I decided to begin a new adventure. Shortly thereafter, I enrolled in Turing School of Software and Design to further my knowledge and found that my skills in collaboration, creative problem solving, and team management could be cultivated in a different way. When I'm not coding, I'm usually hiking, running, playing a board game, or painting.

EDUCATION

CERTIFICATE IN WEB APPLICATION DEVELOPMENT WITH REACT, JAVASCRIPT, NODE, HTML, AND CSS

Turing School of Software and Design |
May 2019 - November 2019

BIOCHEMISTRY, FINE ARTS

Florida State University | 2008-2012

CODE

COLOR-PICKER | [GITHUB.COM/CLLANE/COLOR-PICKER-UI](https://github.com/CLLANE/COLOR-PICKER-UI)

BACKEND:

Utilizing Node.Js, Knex, and Express to create a functional server which stores user accounts and their created projects in a one to many relationship.

FRONTEND:

Created a user interface with React and Router. A full testing suite was created with Jest and Enzyme.

SPACE-LAUNCH | [GITHUB.COM/CLLANE/SPACE-LAUNCH](https://github.com/CLLANE/SPACE-LAUNCH)
